

Are you a female thinking of learning a trade?

PEER is giving females the opportunity to experience working in a trade with our female-only pre-apprenticeship program.

This FREE, 8-week program consists of 6 weeks at PEER's Technical Training Centre and 2 weeks work experience and will suit those who are genuinely interested in building a skilled career.

Designed to provide a variety of experience and highlight career options for females in non-traditional roles, our program will provide real experience and a practical understanding of the trades offered by PEER.
